To Whom It May Concern:

I am writing this letter as my personal and professional endorsement of AIGS as an outstanding business partner. Since my earliest involvement with Gustav and his team members, I have found their company to be excellent in not only their Yellowfin product offering but their personal service as well.

PoCT has been a Yellowfin product reseller and an Integrated Software Vendor for the past 18 months and we can recommend the use of the platform without reservation.

Overall, our organization has been extremely pleased with the product and resources provided by AIGS and I would highly recommend them and their product offering to other organisations.

If you have any further questions please do not hesitate to contact me.

Sincerely
